EQUITY AND INCLUSION CHATS

Join us for an informal conversation about equity and inclusion initiatives going on in our umbrella PhD program, including current student experiences. This session will feature a graduate student panel and an informal Q&A session with our Director of Inclusion and Diversity, Dr. Diana Azurdia, and the Director of Graduate Programs in Biosciences, Dr. Greg Payne.

This virtual chat is an opportunity for you to ask questions in a relaxed setting about anything you'd like to know about UCLA, the programs, and most importantly, the support and community that makes GPB stand out as a champion of equity and inclusion.

DATE: March 23, 2021: 4-6pm PST
