

The Department of Biological Chemistry presents  
**Faculty Research Symposium**

**Thursday, February 8, 2024**  
**9:00 am – 3:00 pm**  
**CNSI Auditorium**

**9:15 – 9:50 am**

**Rosalie Lawrence**  
University of California, San Francisco

**“Allosteric mechanisms of cellular stress signaling”**

**9:55 – 10:30 am**

**Kalli Kappel**  
Harvard University

**“Charting the future of RNA and protein sequence-structure exploration”**

**10:55 – 11:30 am**

**Alessandra Dall’Agnese**  
Massachusetts Institute of Technology

**“Biomolecular condensates: a new perspective on cellular regulation and dysregulation”**

**11:35 – 12:10 pm**

**Jonathan Tsai**  
Brigham and Women’s Hospital

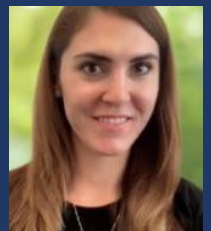

**“A Common Pathway of Hormone Receptor Degradation: UBR5”**

**1:45 – 2:20 pm**

**Alina Guna**  
California Institute of Technology

**“Mitochondrial membrane protein biogenesis in mammals”**

**2:25 – 3:00 pm**

**Brisa Palikuqi**  
University of California, San Francisco

**“Endothelial cells and the promise of regeneration on demand”**

Light refreshments will be served

David Geffen  
School of Medicine
