

Amgen-UCLA Postdoctoral Fellowship Medical Affairs

2024

A fully-funded comprehensive training experience in scientific communications with Amgen Medical Affairs

ABOUT

UCLA Graduate Programs in Bioscience (GPB), in collaboration with Amgen Medical Affairs, invites applications from graduating GPB students and early career postdoctoral fellows for a unique, fully-funded postdoctoral fellowship in scientific communications within the Amgen Medical Affairs group. The fellowship recipient will be appointed as a UCLA postdoctoral fellow to spend two years at Amgen working in a remote format, actively participating in specific areas of medical affairs through intensive, hands-on projects with different teams.

The fellow will receive comprehensive training and experience in scientific communications, including publications, medical communications and medical information in the fields of hematology-oncology, inflammation, or cardiovascular and metabolic disease.

Use the QR code provided to register for the information session today!

ELIGIBILITY

- PhD from a Graduate Programs in Bioscience Ph.D. program by October 1st. Candidates with <1 year postdoctoral experience by October 1, 2024 will also be considered
- Strong written and verbal communication skills and a strong interest in pursuing a career within the biopharmaceutical industry and Medical Affairs
- Must have the authorization to work in the United States throughout the duration of the two-year fellowship. No visa sponsorship will be provided
